

2017 NEW PROGRAM UPDATE: ZAMBIA

Gift of Life International is honored to partner with Gift of Life Southeast Asia, African Vision of Hope and the Nkwazi Rotary Club GOL Program to provide hope to Zambian children with heart disease. Sadly, these children do not have access to cardiac care in their country of birth. It is only through global partnerships that these children are able to receive the care needed to heal their little hearts.

In 2016, a total of 20 Zambian children traveled to Delhi, India, where their hearts were healed at Fortis Escorts Hospital. This wonderful project of hope was made possible by the collaboration of many partners.

Program Results 2016

**20
Children
Treated
(2016)**
