

## Recent Gift of Life 7190 VTT

Pictured below is the sendoff of the Albany Medical Center staff to Romania for a Global VTT in October 2016. Surrounding photos are of some of the many children served.

Our Albany Medical Center team is one of the best in the country and is compiled of virtually the same people who started this sustainable program in the Dominican Republic about 12 years ago. The medical team members donate their personal time.

District 7190 Gift of Life contributed \$15,000.00 to this venture. Additional monies came from 7190 Club donations which were matched by the Rotary Foundation at \$0.50 on the dollar.

Thank you to all who made this lifesaving venture a reality.
