Dear Partners in Caring:

Gift of Life International is proud to partner with you in providing hope for Haitian children in need who have heart disease. The Gift of Life Global Network we are a part of provides care to over 1,000 children per year from emerging countries who otherwise would not have access to this lifesaving care.

This report represents the impact your investment and partnership had in Haiti. Thanks to your generous financial contributions as well as the donation of time and skill provided by our healthcare professionals, 98 children were screened and 11 children were treated for their heart ailments. This care is not available in Haiti without your support.

As you read through this report, please know the impact you have had on the children you see pictured, as well as their parents and the local healthcare professionals. It is because of you that there are now smiles on their faces. You are part of the Gift of Life Global Network which is now a worldwide leader in the treatment of children with heart disease.
