GLOBAL NETWORK | 30
THE NEXT CHILD | 32
Now, please let this sink in for a moment:
Since 1975, our Global Network has treated over 34,400 children from 80 countries across 5 continents.

We all agree that every parent, in every country, should have the right to find care for their child with heart disease in their country of birth. However, we all know this is not a reality in our world today.

Often when we meet the parents of children with heart disease throughout the world, we ask: “What does it mean to you that your child finally is receiving this critical care?” And the answer is almost always, “I prayed for this day...You are an answer to our prayers.” Parents pray every day for their child to be the next child – the next to have their heart healed and their dreams realized.

Every day we work to answer these prayers. Through our Global Network of Caring and partnerships with You, healthcare professionals, Rotarians and our incredible volunteers, we answer the prayers of over 3,000 children’s parents each year. Together, we create miracles each and every day by opening our hearts, traveling far and wide and helping that next child. Our passion is to ensure that love will conquer indifference, hopelessness and fear.

As you read this report, please look into the eyes of the children and their parents. These are real people with real dreams, real futures, and real gratitude for your kindness and generosity.

Moving forward we MUST focus on the children we have yet to meet, yet to reach. Truth is, this is a scary world and many parents will turn to us as their last hope in providing care to their children.

What do you say? Let us continue to open our hearts and travel far and wide this year to give dignity and compassion to those who feel all hope is lost. Together, let us show that love does conquer all. Are you with us?

Let’s keep moving forward together—we’re saving children’s lives worldwide!

President
Like-minded partners

Left to right: Dr. Javier Sanchez of Albany Medical Center helps to mentor Dr. Melvin Moisa in the dedicated pediatric cardiac unit at Hospital Benjamin Bloom in El Salvador.

We envision a world in which doctors and nurses are empowered to care for the children of their country with the support of their government and local community.

No one organization can develop a sustainable pediatric cardiac program in an emerging country.

We are fortunate to have like-minded partners working with us throughout the world to empower local healthcare professionals to care for their own children in a reliable, sustainable manner.
“For every child I cannot help, at least I can help this one...”
Our mission is Global

Our mission is to provide lifesaving cardiac treatment to children in need from developing countries regardless of gender, creed, or national origin. Our goal is to develop sustainable pediatric cardiac programs by implementing screening, surgical, and training missions which are supported by autonomous Gift of Life programs, Rotary Global Grants, and generous donors from around the world.

We are proud to announce Dr. Rodrigo Soto has become our first-ever Clinical Consultant. Dr. Soto is one of the most well-respected pediatric surgeons performing surgeries internationally today. In this appointment, Gift of Life International has increased our capacity to impact the lives of children with heart disease and their families. Welcome to our Global Network of Caring Dr. Soto!

Report on the Financial Statements
We have audited the accompanying financial statements of Gift of Life International, Inc. (a not-for-profit organization, hereinafter "GOLI"), which comprise the statements of financial position as of June 30, 2018 and 2017, and the related statements of activities, functional expenses, and cash flows for the years then ended, and the related notes to the financial statements.

Management’s Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors’ Responsibility
Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors’ judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to GOLI’s preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of GOLI’s internal control. Accordingly, we express no such opinion.

An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion
In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of GOLI as of June 30, 2018 and 2017, and the changes in its net assets and its cash flows for the years then ended in accordance with accounting principles generally accepted in the United States of America.

HUMANIZED CARE
Caring for children in a medical setting is best practiced with the collaboration between healthcare professionals and family, as well as self-care for the professionals. The priority is to provide empathic and compassionate child and family services.

NUTRITIONAL ASSISTANCE
A key component of our program in El Salvador is an aftercare nutritional assistance program. This program ensures Salvadoran children will have the optimal support to recover from their surgeries.
“For the first time, I am able to dream of a wonderful life for my precious daughter.”
Changing the world for the better, one child at a time.

Gift of Life is built upon the Global Network of Rotary and our 84 autonomous Gift of Life affiliates. In connecting the world, we are able to maximize the power of partnership through the mobilization of Rotarians, like-minded organizations, health care facilities and professionals and volunteers. This all translates into more and more children being helped each year. There always will be a next child and partnership allows for us to continuously reach children who otherwise would not receive the care they need!
“Every child is deserving of a healthy heart.”
Maximizing our global impact thanks to our partnership with The Rotary Foundation.

Rotary Global Grants are a major funding source for Gift of Life International and our affiliated programs.

Through this partnership with The Rotary Foundation and its global network, we are able to maximize our impact in providing care to children with heart disease around the world.

An impressive $10,481,251 million in Rotary Grants since 2013 have supported our efforts.

Gift of Life is a Rotarian-based nonprofit organization encompassing 84 Gift of Life programs in 80 countries across 5 continents.

Gift of Life initiatives are supported by 286 Rotary Clubs and 63 Rotary Districts throughout the world.
Gift of Life and Rotary—Partners in Action Around the World

63 Rotary Districts and 286 Rotary Clubs make a world of difference

Rotary Global Grants are a mainstay of Gift of Life International and our affiliated programs efforts to deliver care to children in need with heart disease. Our partnership with The Rotary Foundation and its global network allow us to maximize our impact in addressing the Global crisis of children born with congenital heart defects in emerging countries.

New programs

Pakistan

Every year we look to add new programs to our strategic approach of providing care to children with heart disease around the world.

2018–2019

PAKISTAN IS OUR NEWEST PROGRAM. Every year we add new programs to our Global Network of Caring and develop strategic approaches to increase our impact on the lives of children with heart disease from emerging countries.
A CORE PROGRAM WHICH SUCCEEDS IS DESIGNATED AS A GIFT OF LIFE INTERNATIONAL LEGACY PROGRAM.

The Legacy Program status acknowledges that a pediatric cardiac program has the full backing of its government and hospital, the team has been fully trained, equipment and facilities have been dedicated for use solely by the program and that they are now regularly and sustainably treating their own children. We are proud to announce that our programs in El Salvador and Uganda are officially Legacy Programs.

What is a Core Program? Keep reading...
El Salvador

2010–2019 THE PEDIATRIC CARDIAC PROGRAM IN EL SALVADOR has shown tremendous progress over the past nine years. The number of children treated annually continues to increase, as does the complexity of cases operated and recovered by the Salvadoran team.

As a result of the mentorship of world-class medical teams, the Salvadoran healthcare professionals have increased their skill level and are now able, in most cases, to treat children with heart disease independent of a visiting team.

Uganda

2009–2019 THE GIFT OF LIFE INTERNATIONAL INITIATIVE to develop sustainable pediatric cardiac programs in emerging countries began at the Uganda Heart Institute (UHI) in 2009. Since then, we have upgraded essential equipment, facilitated training by world-class healthcare professionals, installed a telemedicine system and provided supplemental supplies and medicines to support reliable and sustainable surgeries at UHI. We have also worked to engage the UHI Administration and the Ugandan Ministry of Health who now annually support this program.
LEGACY and CORE PROGRAMS

3,857 children treated
92 training missions conducted
$10.86 million invested

El Salvador
Legacy Program
Our dream of Salvadorans sustainably caring for Salvadoran children with ailing hearts has become a reality.

Uganda
Legacy Program
Where once there was despair, today throughout Uganda there is hope for all children with heart disease.

Jamaica
Core Program
We are on the cusp of creating a sustainable program where Jamaican parents will have their prayers answered and children with heart disease will be reliably treated.

Romania
Core Program
Striving to empower Romanian doctors and nurses to do what they are being trained to do: care for Romanian children who need their hearts healed.

THE IMPACT WE HAVE HAD IN THESE 4 COUNTRIES SINCE 2009 comprises over 11% of all children our network has treated in the last 44 years. Bringing together our Global Network has enabled this incredible success and growth in the number of children WE CAN HELP!
In 2009, we developed a strategy to increase the number of children we are able to help every year. The creation of Core Programs maximized our capacity to treat more children. Within these Core Programs was the mandate to strategically develop sustainable pediatric cardiac programs and regional centers of excellence. Currently, our Core programs are Jamaica and Romania. They are in the process of moving toward Legacy status.

The designation as a Core Program allows for Gift of Life International to allocate significant resources and focus on the development of these programs into sustainable pediatric cardiac programs.

Core programs

**Jamaica and Romania**

**Core Program Criteria for Selection:**

- Supportive and invested government
- Motivated and involved hospital administration
- Established pediatric cardiac surgery program
- Existing in-country, non-governmental organization to support the program
2011–2019 A COLLABORATIVE EFFORT. Gift of Life International has partnered with Chain of Hope UK in Jamaica since 2011. Within the coming year, this program will reach a point of sustainability and will be overseen by Chain of Hope Jamaica as Jamaican hearts continue to be healed.

The new pediatric cardiac unit at Bustamante Hospital for Children (BHC) is now open, allowing for Jamaican children with heart disease to be treated in their country of birth. The facility was built and equipped in a collaborative effort between like-minded partners: The Digicel Foundation, Rotary Partners, The Shaggy Make A Difference Foundation, BHC administration and the Jamaican government.

730 children treated
23 training visits conducted
$2.22 million invested
2015–2019 OUR NEWEST CORE PROGRAM. Gift of Life International (GOLI) implemented its fourth Core Program at Grigore Alexandrescu Hospital (GAH) in Bucharest.

The Romanian Ministry of Health and the City of Bucharest invested in the creation of a state-of-the-art pediatric cardiac unit at GAH which opened in September 2016.

GOLI global partners Save A Child's Heart (SACH) and Albany Medical Center along with GOLI Clinical Consultant Dr. Rodrigo Soto have provided training to the Romanian pediatric cardiac team at GAH.
Going beyond

Our Legacy and Core Programs

GIVING HOPE TO FAMILIES AND CHILDREN who must face the unknown future of whether care is possible or not is our unwavering promise to the millions affected by the Congenital Heart Disease Global Crisis which exists today.

COUNTRIES OF FOCUS are countries that do not meet our criteria to be considered a Legacy or Core Program; however, there is a dire need to provide care to their children.

Africa
Egypt

Asia
India, Pakistan, and The Philippines: Cebu and Manila

Caribbean
The Dominican Republic and Haiti

Europe
Kosova

North America
Mexico

Middle East
Jordan and Lebanon
Every child is a unique gift and must be treated as such, for they are our hope for the future. “
Countries of Focus

The Dominican Republic
Egypt
Haiti
India
Jordan
Kosova
Lebanon
Mexico
The Philippines

93% of children who are born with a Congenital Heart Defect are born in a country where there is no hope for treatment. We strive to deliver care to those children and allow their parents the opportunity to have their child healthy and happy for many years to come.

2,861 children treated
58 missions conducted
$5,442,853 million invested

All data shown represents Countries of Focus as of June 30, 2019
**The Dominican Republic**

- **173** children treated
- **9** missions conducted
- **$479,900** invested (Rotary Grants)

*2014–2019*  
**WE APPRECIATE THE PARTNERSHIP** of Fundacion Latiendo Por Ti, Hospital Infantil Dr. Robert Reid Cabral and Rotarians around the world and in the Dominican Republic which allows for Dominican parents to have hope that their children with heart disease will be treated.

**Egypt**

- **78** children treated
- **$261,550** invested (Rotary Grants)

*2017–2019*  
**OUR PARTNERSHIP WITH EGYPTIAN ROTARIANS GROWS STRONGER EACH YEAR** as does our ability to deliver care to Egyptian children with heart disease. Through the support of Rotary Global Grants, we are now delivering care to over 50 children a year who otherwise would have no access to treatment. Together with The Rotary Foundation, the Cairo University Hospital, Gift of Life Northeast Ohio and Gift of Life programs and Rotarians around the world, Egyptian hearts are being healed and parents prayers are being answered.
**Haiti**

370 children treated
1,073 children screened
19 missions conducted
$1.20 million invested (Rotary Grants)

**2012–2019**  **WE ARE PROVIDING HOPE** to hundreds of Haitian children and parents every year. At St. Damien Hospital, the first-ever trained Haitian pediatric cardiologist is caring for children every day. Together with our partners, we have healed over 370 Haitian children over the past 8 years. Thank you to GOL Northeast Ohio, GOL Inc. and other GOL programs, Akron Children's Hospital, Haiti Cardiac Alliance, Rotarians, Rotary International, Ospedali Pediatrico Gaslini and St. Damien Hospital for healing little Haitian hearts.

**India**

833 children treated (GOLI Partnerships 2016–2019)
$415,541 invested (Rotary Grants)

**2016–2019**  **OUR WORK IN INDIA IS MADE POSSIBLE THROUGH PARTNERSHIPS** with 5 Gift of Life programs throughout the country. Thanks to the support of Rotary Global Grants, we provide care to over 100 children each year from India and beyond. Since 2005, GOL Programs in India have treated 4,500+ children with heart disease.
2007–2019 **GIVING CARE AND LOVE TO CHILDREN IN JORDAN AND THROUGHOUT THE REGION.** Gift of Life Amman works tirelessly to ensure that not only Jordanian children in need receive care but also Syrian refugees and Middle Eastern children with heart disease. Thank you GOL Indiana and Chain of Hope for your partnership in healing the hearts of children from this Region.

### Jordan

- **406** children treated
- **9** missions conducted
- **$668,872** invested (Rotary Grants 2016-2018)

2012–2019 **WE HAVE NOW HELPED NEARLY 100 KOSOVAR CHILDREN WITH HEART DISEASE.** Through our Global Network of Caring, children are placed for treatment one at a time with affiliated programs and hospitals. In August of 2019, Gift of Life will conduct its first-ever surgical mission in Kosova thanks to Gift of Life Rotary District 7490 Foundation.

### Kosova

- **99** children treated
- **435** children screened
- **4** screening missions conducted
- **$346,000** invested ($66,000 Rotary Grants)

PAGE 27
2015–2019  **GIFT OF LIFE LEBANON CONTINUES TO REACH MORE AND MORE CHILDREN** each year. Partnering with Hammoud Hospital and American University of Beirut Medical Center, over 260 Lebanese and Syrian children have received care that otherwise would not have been available. Thank you to Chain of Hope, GOL Indiana, Greenfield Rotarians and Rotarians from Lebanon and around the world and the Rotary Foundation for your partnership in providing healthy, happy futures to nearly 100 children per year.

2018-2019  **AS OUR FIRST YEAR OF WORK IN MONTERREY, MEXICO COMES TO AN END,** we look to a future of helping more and more children in need. Our goal is to increase the capacity of Zambrano Hellion Hospital to provide care to Mexican children with heart disease. We are most fortunate to have CardioChavitos as our partner in this quest to give hope to Mexican parents and their children with heart disease.
2018–2019 BUILDING A SUSTAINABLE FUTURE IN CEBU. With great support from the Rotary Club of Cebu and the doctors and nurses of Vicente Sotto Memorial Medical Center, we are training the local team to provide care to their own children and have provided care to 139 children this past year. Thank you to many Rotarians, Gift of Life programs and the Rotary Foundation for providing the funding to support this most successful effort.

The Philippines, Cebu

139 children treated
4 missions conducted
$553,300 invested (Rotary Grants)

2013–2019 THE ROTARIANS OF THE MAKATI WEST ROTARY CLUB ARE LEADING THE WAY throughout the Manila Region in giving hope to children with heart disease who otherwise would have no chance of being treated. Their program has now provided care to nearly 800 children and they have created an aftercare program which provides continuous support to the neediest of their children. Of the nearly 800 children treated, 443 have been treated through Rotary Grants since 2013.

The Philippines, Manila

443 children treated
7 missions conducted
$540,000 invested (Rotary Grants)

• Giving HOPE to parents of children with heart disease from 80 countries

• Developed sustainable pediatric cardiac programs in our 2 LEGACY PROGRAMS: El Salvador and Uganda
forward...
There will always be a next child

There is a next child...who needs our love...and someday will realize their dreams for health and happiness!

In our mission, we must realize that love will conquer all. The gift of love is unique and with it brings hope!

As we focus on the global crisis of heart disease, maximizing our impact and collaborating our efforts leads to the provision of care to more and more children every year!
TO OUR STAKEHOLDERS AROUND THE WORLD:
Our donors, rotarians, healthcare professionals, and volunteers for your impact on so many families

Thank you

Gift of Life International provides gratis treatment to children with heart disease and is tax exempt according to IRS Code 501 (c) (3). Tax ID#56-2322626
