GREENFIELD — A local elementary school has been named a national Blue Ribbon school.

Eden Elementary, 8165 N. State Road 9, Greenwood, is one of only seven Indiana schools to be named a recipient of the U.S. Department of Education Blue Ribbon Schools Award.

Created in 1982, the Blue Ribbon Schools Program honors public and private elementary, middle and high schools that are either high performing or have significant improvement in student achievement among disadvantaged students.

In November, the department of education will conduct a reception in the nation's capital to formally recognize the schools and students.

For more information about Eden's achievement, see an upcoming article on the school in Thursday's Daily Reporter.

GREENFIELD — He came armed with a cot, a sleeping bag and a fan to drown out the sound of the crickets.

J.B. Stephens Elementary School principal Matt Davis prepared a cot to sleep on the school's roof, fulfilling a promise he made to students for reaching a fundraising goal.

The Daily Reporter today salutes Sheila Swift of Greenfield and Chris Schaller of Greenfield, have a great day!
