Thank you to all Rotary Global Grant sponsors including the Rotary Clubs of Santa Catarina, Conejo Valley, Contry de Guadalupe, Sierra Madre, Monterrey Metropolitano, Monterrey Cumbres, Rotary Districts 4130 and 7255, Gift of Life Rotary District 7500 Foundation, Gift of Life Los Angeles and The Rotary Foundation.
ROTARIANS IN ACTION
Gift of Life International is proud to partner with International Children’s Heart Foundation, CardioChavitos, Rotary, TecSalud Foundation and Zambrano Hellion Hospital as we continue our new initiative to heal little hearts in Mexico. We are grateful to the Santa Catarina Rotary Club (Host Partner Club) and to the Conejo Valley Rotary Club (International Partner Club) for joining with the many Rotary Global Grant contributors to make this training mission possible.

This second training mission resulted in the treatment of 10 Mexican children. While we celebrate saving the lives of 8 children, our hearts are heavy and our thoughts and prayers are with the families of the two children who passed.

Our sincere thanks to the International Children’s Heart Foundation visiting team, led by Dr. Rodrigo Soto, who worked tirelessly to heal the hearts of these children and to share their knowledge and skills with the local healthcare professionals. Our sincere thanks to the dedicated team at Zambrano Hellion Hospital for your hospitality, your willingness to learn and the love you have for the children of your country.

The CardioChavitos team, together with local Rotarians, coordinated all logistics for the mission and helped to ensure another very successful mission. Once again, CardioChavitos coordinated a workshop prior to the mission to prepare all parents and children for what to expect pre-op and post-op and to ease the anxiety of going through this heart healing process.

A special thank you to Medtronic for partnering this lifesaving mission by donating medical supplies which helped to heal these little hearts.
THANK YOU TO OUR VISITING TEAM FROM INTERNATIONAL CHILDREN’S HEART FOUNDATION
