Project planning

Describe the community needs that your project will address.

Many of the children from financially weaker communities suffer from undetected congenital heart disorders. Even when identified, they do not have the financial means to undergo treatment. Most of the cases arise in northern states of India. Many of these community members bring affected children to the hospital we are currently engaged in, as part of this project.

How did your project team identify these needs?

The hospital has already undertaken several medical camps in the above said region and the result has been very informative and useful in providing remedial measures to those children who are affected.

How were members of the benefiting community involved in finding solutions?

Not involved

How were community members involved in planning the project?

Not involved

Project implementation

Summarize each step of your project's implementation.

Do not include sensitive personal data, such as government ID numbers, religion, race, health information, etc. If you include personal data, you are responsible for informing those whose personal data is included that you are providing it to Rotary and that it will be processed in accordance with Rotary's [Privacy Policy](#).

This being a very specialised area , need expert hands to conduct the surgery.

We train the parents of those children who underwent the surgery and empower them to educate other parents of similar children to carry on with the remedial measures clinically.

How were these needs identified?

The concerned hospital based on their past experience has a protocol for giving counseling and review .

What incentives (for example, monetary compensation, awards, certification, or publicity), will you use, if any, to encourage community members to participate in the project?

As the Host Sponsor we intend to train the parents of those children who are saved by the surgery to create more awareness regarding this in their own community. We are planning a get together of all the parents who undergoes surgery through us once a year to build awareness in the community and build a lasting bond with them. This will help us to empower each and every parent to create awareness in their own community and society regarding treatment options for congenital heart diseases.
